

Tungsten Carbide Slitting Blades from Jarshire

Serving all major OEMS, Jarshire tungsten carbide slitting blades are produced and machined utilising the highest quality material available. With excellent appearance, their high precision ensures a long, cost-effective working life.

A comprehensive range caters for a wide range of manufacturers including BHS, Agnati, Marquip, Fosber, Peters, Mitsubishi and many others.

Sizes are available according to machine type and application and may be specified with numbers of holes or pins, with or without slots and single or double bevels as required.

Jarshire tungsten carbide products can be supplied in either as-sintered or precision-ground form to best suit end use.

Employing the highest quality tungsten carbide material and machined by the latest professional equipment, Jarshire products offer excellent appearance, high precision and a long working life.

A close-up, angled view of a slitting blade's edge, showing its polished, reflective surface. The word "JARSHIRE" is visible on the blade's surface.

JARSHIRE

Tungsten Carbide Slitting Blades
