

Svecom Safety Chucks

For over 60 years, Svecom PE has been manufacturing innovative and highly customisable systems for the winding and unwinding of reels in the Converting, Corrugating, Paper and Tissue industries. The company has been represented in the UK by Jarshire Ltd since 1979.

The Svecom range of rotating safety chucks for the winding and unwinding of reels guarantee greater safety and a higher rotation speed. The safety chucks, in fact, can now be equipped with mechanical and electromechanical sensors able to verify if the safety chuck is open or closed, thus drastically improving safety.

- Lower installation costs
- High payload capacity
- 12-month warranty ensures the quality of the product

The Svecom Safety Chuck Range

– *meeting the need*

Model 900

Mechanical safety chuck with u squared shaped and tilting ring

Model 905

Mechanical safety chuck with V squared shaped and sliding ring

Model 910

Mechanical safety chuck with V squared shaped and tilting ring

Model 925

Mechanical safety chuck with round-squared shaped and sliding ring

Model 926

Self-closing mechanical safety chuck with round-square/square-square shaped and sliding ring

Model 935 & 936

Pneumatic safety chucks with round-squared shape

Model 950

Mechanical safety chuck with sliding ring, axial movement and round-square shaped

Model 951

Self-closing mechanical safety chuck with sliding ring, axial movement and round-squared shaped

Model 955 & 956

Pneumatic safety chucks with round-squared shaped and axial movement
